Boynton Beach Cardiologists Serve Hispanics and Non-Hispanics

**Meta Description (<156 char)**

Boynton Beach Cardiologists are available to help Hispanic and non-Hispanic patients in the Delray Beach area

**Body**

The heart care specialists at Boynton Beach want everyone to know they are available to help both Hispanic and non-Hispanic residents, in Spanish or English, with health issues related to heart disease, cardiology, arrhythmias, or other related concerns. This article explains who we are and what we do for our community.

**Why does South Palm Cardiovascular Associates provide cardiology services to Boynton Beach residents?**

Due to the fact that cardiovascular diseases are the number one cause of death in the United States, there is a critical need for excellent Delray Beach heart doctors to both prevent and treat heart diseases. As the Delray Beach community includes a large number of Hispanic patients, we are pleased to offer all services in both Spanish and English. We are familiar not only with the language, but also the special cultural needs and concerns of the Hispanic community.

South Palm Cardiovascular Associates includes a team of highly trained Boynton Beach cardiologists who provide initial examinations followed by non-invasive and invasive procedures to address the needs of their patients. Our Boynton Beach vascular doctors believe in working as a team with our patients, and therefore we place a high value on excellent doctor-patient communication. We believe our patients should be well informed and should be able to participate in

the decision making process, in order to achieve the best possible health outcomes.

### **What services are offered by South Palm Cardiovascular Associates?**

We offer diagnoses and treatment of common cardiovascular conditions including peripheral arterial disease, a relatively common disorder that develops from narrowed arteries that reduce the flow of blood to the lower limbs. We also offer standard procedures such as electrocardiograms, echocardiograms, Holter monitoring, stress tests, pacemakers, tilt table testing, and other non-invasive procedures. In terms of invasive procedures, we provide cardiac catheterization, angiography, stenting, atherectomy, transesophageal echocardiography, electrical cardioversion and valvuloplasty.

These and other services are available to help diagnose and treat a number of common cardiovascular conditions, conditions for which we also offer patient education and support throughout the treatment and follow-up process. At South Palm Cardiovascular Associates, we strive to provide both our Hispanic and non-Hispanic patients with personalized cardiovascular care in their own language, in a comfortable, communicative environment. To us, you're much more than a set of symptoms. We hope to develop lasting relationships with our patients as we help them achieve improved health and well-being for years to come.

So don't delay; give South Palm Cardiovascular Associates a call and let us set up an initial consultation. We look forward to meeting you.

Looking for a cardiologist in Boynton Beach who speaks Spanish? Look no further – South Palm Cardiovascular Associates has it covered. Not only are our Delray Beach heart doctors highly trained and extensively experienced, they also are connected with the Hispanic community in our area.

You see, excellent doctor-patient communication is of the highest importance to us here at South Palm Cardiovascular Associates. Cardiovascular diseases are the number 1 killer in the US, so it's critical that physicians and patients are able to work together to both prevent and treat heart diseases effectively.

We know that heart diseases are complex conditions that are the result of multiple risk factors, some of which you can control, such as lifestyle choices, and others you cannot affect now matter how hard you try, such as age and genetics. That's why we will take the time to get to know our patients and really listen to their questions and concerns. By working together, with patients doing their part and our Boynton Beach heart doctors offering expertise and the latest technology, we have an excellent chance of preventing or treating heart problems successfully.

Whether you are Hispanic or not, the first step to better cardiovascular health is a call to South Palm Cardiovascular Associates to set up an initial appointment. We'll be happy to speak with you in Spanish or English, and to work with you and your family to achieve your health objectives as effectively and quickly as possible. We look forward to hearing from you.
